

Emerging Products Recorded Impressive Growth

For the first five months of 2006, China Shineway recorded impressive sales growth for its emerging products. Sales of Huo Xiang Zheng Qi soft capsule had increased 145% as compared to the first five month of last year. Sales of Shu Xue Ning injection, Huang Qi injection and Paediatric Qing Fei Hua Tan granule also surged 380%, 43% and 47% respectively.

The increases in sales of the emerging products are as a result of implementation of our growth strategies. While we continue to strengthen our marketing effort, it is expected that the high sales growth of these emerging products will continue.

China Shineway was honored as “2005 Top 100 Companies in China’s Pharmaceutical Industry”

In a conference held on 16 May in Chengdu, China Shineway was honored as one of the “2005 Top 100 Companies in China’s Pharmaceutical Industry”.

The conference was organized by the Southern Medical Economic Research Institute administered under the State Food and Drug Administration. The companies in the Top 100 list have important roles and are influential in China’s pharmaceutical industry.

China Shineway is the first Chinese medicine manufacturer to be certified with the national uniform measurement management systems standards

China Shineway recently obtained an “AAA Certificate of Conformity for Measurement Management Systems” issued by a certification unit under the General Administration of Quality Supervision, Inspection and Quarantine of the PRC. China Shineway is the first Chinese medicine manufacturer to receive such certificate.

The “AAA” certificate represents the highest recognition in measurement management systems in China and also serves to endorse China Shineway’s conformance in all of the ISO10012:2003 standards applied in product quality, operation management, energy consumption and environmental monitoring.
