

## **Wu Fu Jiangzhi Tongluo Soft Capsule received state protection status**

Wu Fu Jiangzhi Tongluo Soft Capsule was awarded by the State Food and Drug Administration as a State Protected Chinese Medicine. At the same time, our product, Xuanmai Ganjie Lozenges's state protection status was granted to extend to November 2015.

Wu Fu Jiangzhi Tongluo Soft Capsule is a national grade new medicine of advanced technologies and efficacy in both lipid-lowering and liver protection. Wu Fu Jiangzhi Tongluo Soft Capsule has been included in the National High Technology Research and Development Program (863) project, and was granted by four ministries of the country as a State Key New Product.

## **China Shineway received two important invention patents**

Recently, China Shineway obtained two patents including the "drug and manufacturing method of treatment of ischemic cerebrovascular disease" and "Ginkgo biloba extract composition and preparation method".

The "drug and manufacturing method of treatment of ischemic cerebrovascular disease" patent is part of the international cooperation project in Australia for SLT capsule core technology. The "Ginkgo biloba extract composition and preparation method" patent is for our company's core product Shu Xue Ning Injection. It will benefit the upgrade of production know-how and will deeply impact the product market competition in the future.
