

Wufu Xin Nao Qing Soft Capsule Named “The Most Influential Brand in 2005”

Wufu Xin Nao Qing Soft Capsule was named “**The Most Influential Brand in 2005 / Top 100 Company in Chinese Pharmaceutical Industry**” in a survey jointly conducted by China Association For Quality Supervision and Management, China Quality Standard Research Center and China Industrial and Economic Survey and Statistics Centre.

The survey ranked pharmaceutical products based on their product quality, market share, customer loyalty, brand awareness and brand influence. The accreditation exemplified the recognition and acceptance of WuFu Xin Nao Qing in the market place.

China Shineway Aimed for GMP Licensing in Australia

China Shineway is in the process of applying for the GMP certificates of Australia for its Chinese medicine extraction, soft capsule and granule production facilities .

The Australian GMP certificates are recognized by the Australian government and over 20 member countries of PIC/S, including the UK, France, Germany, Austria, Italy, Finland, Greece, Iceland, Belgium, Denmark, Sweden, Netherlands as well as Singapore and Canada. Successful application will open the door for the Group to tap opportunities in the Australian, Canadian and European markets.

A New Granule Product Commences Production

Fu Fang Xin Bu granule, a new OTC product for treatment of common cold and flu symptoms such as fever, headache and nasal congestion, has commenced production. The new granule has broad application and market for the general public.
