

China Shineway Obtained GMP Certificates of Australia

China Shineway has recently obtained the Good Manufacturing Practice (“GMP”) certificates issued by the Therapeutic Goods Administration of Australia for our manufacturing facilities of soft capsules, granules and 5 other dose forms. The Australian GMP certificates are mutually recognized by over 20 countries, including the UK, Canada, France, Germany, Austria, Italy, Czech, Finland, Greece, Iceland, Belgium, Denmark, Sweden, Singapore, Netherlands, etc, under the Pharmaceutical Inspection Cooperation Scheme (“PIC/S”).

The certification signifies that China Shineway’s manufacturing facilities and quality assurance protocols are in line with the international standards. The certification also paves a way for China Shineway to market our modern Chinese medicines in those countries under PIC/S.

Shineway Is Entering into the Tibet Market

China Shineway has commenced the sales of Xuesaitong Dropping Pills to our Tibet distributors. While this is our first time to enter the Tibet market, this also marks as a milestone that we have made our products available to all provinces and autonomous regions of the country.

Extension of Yinzhihuang Injection as State Protected Chinese Medicine is approved

Shineway Yizhihuang Injection has recently been approved for its extension as a state protected chinese medicine, pursuant to the “No.24 Announcement on the Extension of the Protection of Chinese Medicine”, promulgated by the State Food and Drug Administration.
