

China Shineway's Chairman is appointed as the Honorary Council Member of the Chinese Medicine Society

At the national conference held in Beijing, the Chinese Medicine Society appointed the Chairman of China Shineway, Mr. Li Zhenjiang, as the honorary council member of the Chinese Medicine Society.

The Chinese Medicine Society was established in 1907, and is one of the earliest academic societies established in China. Its missions are to enhance academic level of the pharmaceutical science fellows and promote the development in pharmaceutical technologies and its modernization.

China Shineway Ao Sha En Injection was included in the Hebei Province Technology Project

Recently, Ao Sha En Injection, a new product being developed by China Shineway has been chosen to include in the 2007 Hebei Province Science and Technology Research and Development Project.

Ao Sha En Injection is a patented new Chinese medicine. It has been developed through research of Chinese hawthorn leaf, proven to have curative effect to certain cardiovascular system illness. At present, the medicine is under the clinical trial for its safety and other curative effect.

China Shineway Obtained Another Patent Certificate

China Shineway obtained another invention patent of "a medicine compound and its preparation method for preventing and controlling damage caused by Cerebral Ischemia".

This patented new medicine has curative effect in recovery from nerve damage caused by Cerebral Ischemia, reducing the area of cerebral infarction, lower the water content and brain indexes of Cerebral Ischemia, and increase of serum superoxide dismutases (SOD). The medicine is made out of natural herbal ingredients and China Shineway is conducting clinical trial of this new patented medicine.
