

Five Shineway product registrations to the Canadian health authorities were accepted

Recently, applications of five Shineway products registration have been accepted by the Canadian health authorities. These five products include Abnominal-Eze soft capsule, Throat Comfort granule, Anxiety-Eze Granule, Cold-Eze soft capsule and Superking tablet. Traditional Chinese medicines entering the Canadian market must register and undergo stringent review by Health Canada. Their acceptance of our products registration paves an important milestone for our products to enter into the Canadian market.

The construction of modern technology and quality center is completed

The construction of new modern technology and quality center is now completed and officially commence to use.

The new center has a constructional area of 6,100 square meters and is well equipped with advanced research and development laboratory and state of the art quality inspection facilities. This new modern technology and quality center will further enhance our research and development ability and the quality control level.

Shineway was named as “Model Enterprise in Harmonious Labour Relation”

The Ministry of Labour and Social Security, All China Federation of Trade Unions and the China Enterprise Federation held a conference during the month at the Great Hall of People to endorse enterprises that have strong achievement in employee relation and harmony. Shineway was honored as one of the “Model Enterprise in Harmonious Labour Relations”.
