

China Shineway's Modern Technology and Quality Control Centre received accreditation of ISO/IEC 17025

China National Accreditation Service for Conformity Assessment (CNAS) announced that our Modern Technology and Quality Control Centre has been accredited under ISO/IEC 17025. The accreditation ISO/IEC 17025 is an authoritative recognition of integrity and technology management ability of laboratories. With the accreditation, laboratory reports issued by China Shineway are recognized by 56 accreditation bodies in various countries under mutual recognition arrangement with the CNAS.

Shineway was ranked among the “500 Most Valuable Trademarks in China ”

The “Shineway” brand name was again selected as one of the “500 Most Valuable Trademarks in China” by the China Brand Research Institute with trademark value of RMB1.67 billion.

The selection criteria encompassed national famous trademarks enterprises in China with reference to their profitability of past two years, industry characteristics, market condition, reputation and history and positioning of the brand name to estimate value of the brand.
