

Shineway's pediatric granule series reported impressive sales

China Shineway owns a series of granule products for children infected by respiratory related diseases. For the first six months, sales of these pediatric granule products increased by 76.7% from the corresponding period of last year to reach a turnover of RMB56,837,000. Among these children granule products, Pediatric Qing Fei Hua Tan Granule recorded a sales of RMB32,825,000, representing an increase of 121.2% from the corresponding period of last year. This product is expected to be another growing star of the company.
