

Two products were named as “Innovative New Products” of Hebei Province

Shineway’s Jiangzhi Tongluo Soft Capsule and Shujin Tongluo Granule were included in the list of the first batch of “Innovative New Products” of Hebei Province by the Provincial Science and Technology Department. Accordingly, these two products are now entitled to priority in government procurement.

Jiangzhi Tongluo Soft Capsule is included as the country’s “863 Project”, and also a “Model Project for Hi-Tech Industries” of China as well as a “State Key Product” designated by the Minister of Science and Technology of China. Shujin Tongluo Granules is for the treatment of cervical vertebra sickness and received a “Foremost Technology Award” from the city of Shijiazhuang in 2007.

China Shineway reported impressive interim results

For the first 6 months of 2008, China Shineway recorded a growth of turnover and net profit of 39.2% and 35.5%, with sales revenue of Chinese medicine injections, soft capsule and granule products increased by 37.4%, 34.3% and 59.8% respectively.
