

Shineway received new medicine certificate for Xingsu Zhike Soft Capsule

Xingsu Zhike Soft Capsule, a new medicine researched and developed by China Shineway, received a new medicine certificate and production license.

Xingsu Zhike Soft Capsule is developed based on traditional Chinese medicine formula. It is made of six herbal ingredients include prunus sibiricus, citrus nobilis, perilla frutescens and three other herbs. Xingsu Zhike Soft Capsule has been proven on clinical use of upper respiratory infection and acute bronchitis. The soft capsule format preserves all active ingredients and further enhances rate of absorption while confining its odor and bitter taste.

Shineway was named as “Hong Kong Outstanding Enterprise 2008”

China Shineway was named as a “Hong Kong Outstanding Enterprise 2008” by Economic Digest, a leading business and financial weekly magazine in Hong Kong. The selection criteria are based on outstanding business growth, good corporate governance and preference of investors. China Shineway is the only listed pharmaceutical company receiving such honor in this year.

Shineway was honored as “The Hong Kong’s 100 Most Influential Brands”

China Shineway received a honor as one of “The Hong Kong’s 100 Most Influential Brands” from the World Brand Laboratory, an international recognized brand value appraisal agency. Through studies and analysis of over 1,000 well known brands in Hong Kong, the World Brand Laboratory selected 100 most influential brands in Hong Kong based on their market shares, brand loyalty and global leadership. This honor further endorses the prominence of Shineway brand value.
