## **Construction of new multi-purposes complex in Shijiazhuang has commenced**

Construction of a new multi-purpose complex in our Shijiazhuang headquarters has recently commenced. The construction is expected to be completed by the end of 2009. The new 17 stories complex occupies approximately 4,000 square meters of land space with floor area of 26,000 square meters. The new complex will have modernized facilities such as conference rooms, halls, staff quarters, and canteen.

## **China Shineway has commenced the modern Chinese medicine park project**

China Shineway has officially commenced the project on the modern Chinese medicine park adjacent to our Shijiazhuang headquarters. The project is named as a key project of hi-tech planning and economic development of the Hebei Province. Upon completion, the modern Chinese medicine park will further solidify our leading position in modern Chinese medicine. At this stage, this project will be first start with the construction of new composite production workshop, safflower oil processing workshop, water cycling plant and steam turbine power station. Subsequently, plans aimed to further expand production capacity and enhancement of technologies will soon commence.
